SUMMARY

Quick learner with academic abilities and technical knowledge to succeed in different roles. Ready to expand horizons with additional knowledge and abilities gained from training and experience. Always ready to help others and use abilities to support team goals. A career-minded student with a record of good marks in different subjects. Works hard on assignments and consistently meets objectives. Looking to experience the field outside the classroom and build the foundation of knowledge and skills.

PROJECTS

PROJECT-1

Interior Designer Website -

- **Technology Stack:** This project utilizes HTML, CSS, and JavaScript for front-end development and Google Sheets for data storage.
- **Website Purpose:** The website serves as an online portfolio and information hub for an interior design company.
- **Login Form:** The website includes a login form for authorized access, enhancing user experience and security.
- **Navigation:** A responsive navigation bar simplifies exploration, featuring design categories like living room, bedroom, kitchen, bathroom, balcony, and home-office interiors.
- **Services:** Detailed service descriptions are provided, outlining the company's design styles and processes.
- **Contact:** Users can easily contact the company through a contact form and access contact details and location information.
- **Responsive:** I have experience in designing and optimizing websites for desktop-friendly user experiences.
- **Company Connections:** Integration with social media and other company connections facilitates user engagement and networking.
- **Google Sheets Integration:** Google Sheets serves as the backend data storage solution, allowing you to easily manage and update portfolio content.

PROJECT-2

Portfolio Website -

- **Home Page:** The website's home page provides visitors with an engaging introduction to your portfolio a summary of key skills and qualifications.
- **Skills:** This section highlights core skills and areas of expertise. It can showcase technical skills or soft skills.
- **Education:** The education section offers a detailed overview of the academic journey, including degrees, majors, universities attended, and graduation dates.
- **Certificates:** Visitors can explore certifications and qualifications in this section. It provides information on certifications earned, and certification authorities, adding credibility to your skillset.
- **Extra-curricular Activities:** This section reveals involvement in extracurricular activities, such as organizations, volunteer work, etc. It showcases your well-rounded personality and interests beyond your professional life
- **Contact Information:** The website includes a contact section, enabling visitors to get in touch with you. It can feature a contact form, your email address, phone number, and links to your professional social profiles.
- **Responsive:** Specialize in creating responsive web designs that ensure seamless functionality and visual appeal on desktop platforms.
- **Google Sheets Integration:** Google Sheets serves as the backend data storage solution, allowing you to easily manage and update portfolio content. This ensures that your portfolio is always up to date.
